To whom it may concern,

REACH is a new European Community Regulation on chemicals and their safe use (EC 1907/2006). It deals with the **Registration, Evaluation, Authorization and Restriction of Chemical** substances. The law entered into force on 1 June 2007. The goal of REACH is to improve the protection of human health and the environment through the better and earlier identification of the intrinsic properties of chemical substances.

American Steel and Aluminum LLC distributes coated and uncoated steel along with aluminum and stainless steel. The only product within this group that may not meet the REACH directive is the coated steel products that are not ROHS complaint. Coated material ordered as ROHS compliant is REACH compliant.

Any question or concerns regarding the REACH directive should be emailed to bob.haas@amerincansteelalum.com .

A handwritten signature in black ink, appearing to read 'Bob Haas', is written over a horizontal line.
